Philadelphia, Pa. 19106

SUBJECT: Llangollen Landfill - Delaware

DATE: January 19, 1977

FROM: Paul E. Ambrose, Chief
Delmarva-DC Section *PEA* 3EN21

TO: Larry Miller, Chief
Water Quality Monitoring Office 3SA60

ORIGINAL
(Red)

In order to compare present effluent conditions of the recovery wells with the conditions found in January 1974, please change the recovery wells listed in my January 12, 1977, memorandum to you from wells 51, 28 and RW5 to wells 29, 27 and RW3.

*Revised to
1/2/77
mam*

In addition, it has been recommended by Al Montague that samples be split with EPAS ORGD Athen Laboratory as they had run the original evaluation. It is also recommended that we split samples with State of Delaware as previously agreed to.

Please add PCB to list of materials to be checked.
